SPONSOR-A-HORSE

WHAT DO OUR THERAPY HORSES COST EACH YEAR?

Our horses have a stressful job. They are asked to carry unbalanced riders with most having either emotional, physical or cognitive challenges. Our horses must handle meltdowns (screaming, hitting, etc.) from their students as well as things like balls being tossed toward them, hula hoops, bubbles and anything else you can think of, all while remaining calm and giving their rider the safest possible experience. They are asked to not just listen to their rider, but also to the horse leader, side walkers and instructor. Many professionals equate therapy horse's jobs with that of race horse's jobs. With that being said, we feel we must provide them with the HIGHEST QUALITY care possible. They give ALL of themselves to us and our students and they DESERVE everything we can give them!
